

PARENT/GUARDIAN SIGNATURE FORM

Period\_\_\_\_\_

I have read and discussed the Math Analysis Rules and Regulations sheet (green sheet) and I will assist my student in following them. I also realize that homework is assigned everyday. Students will need to be organized. A 1.5 inch thick 3-ringed binder fill with graph paper is recommended. We will use a graphing calculator throughout the year. A TI-83 or 84 (any version) graphing calculator is recommended. For any other graphing calculator, the student must read the manual to learn how to do the required tasks.
