

I acknowledge and understand that Mr. Stark:

- a) does not use Naviance or any other automatic letter submission software
- b) that I will not be able to track Mr. Stark's letter through such systems
- c) that Mr. Stark typically sends hard-copy letters by U.S. Postal Service mail
- d) that Mr. Stark often sends letters right at the deadline, and only rarely sends them early
- e) that letters sent that way may take considerable time while in transit, while in the college mail room, and while getting filed appropriately, etc., so that it may be well after the mailing deadline before a college will confirm receipt or indicate it on an admissions website

and I promise not to bug Mr. Stark nervously if a deadline passes but receipt of the letter has not yet been confirmed by the college.
